

What will happen? Will it float or will it sink?

I think it will...

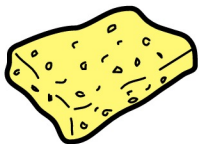

I see it...

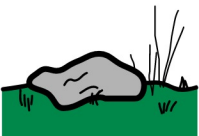

cork

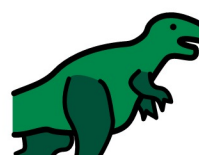

beads

sponge

stone

toy dinosaur

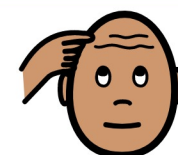

Lego

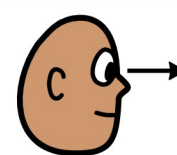

magnetic
letter

key

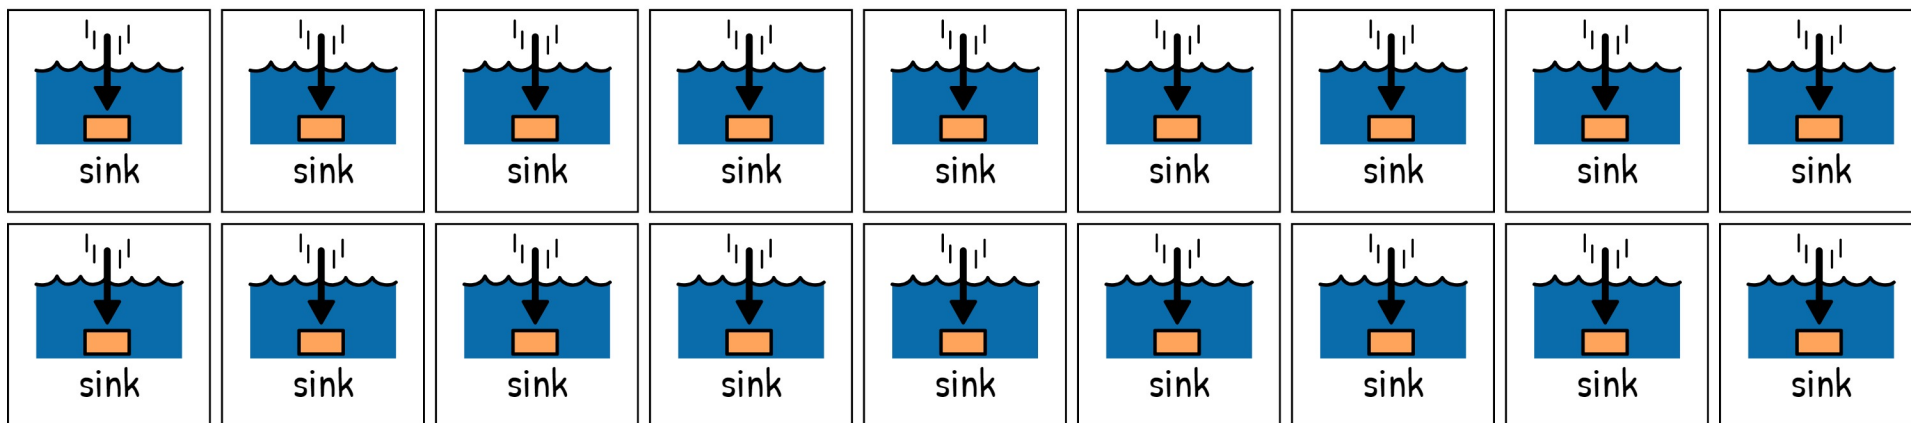

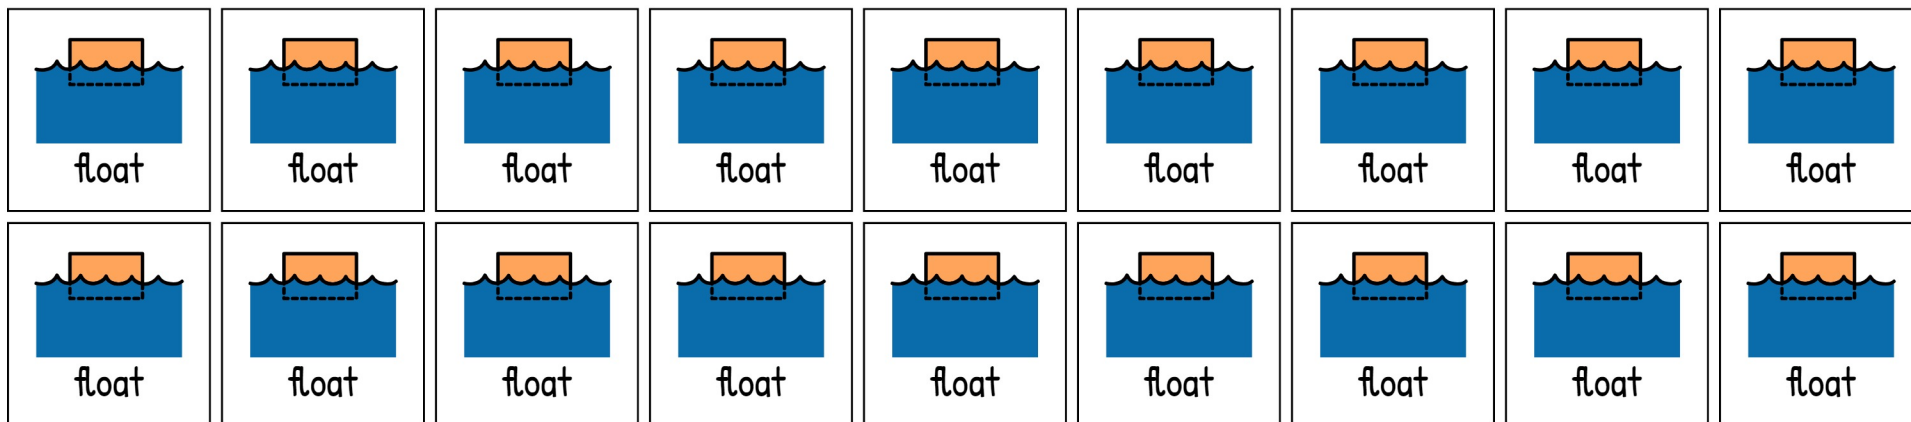

I think it will...

I see it...

This resource can be completed as a cut and stick activity. Alternatively to create a re-useable resource, laminate both pages. Attach loop velcro dots (soft side) to the middle of the blank boxes on the first page. Attach hook velcro dots (rough side) to back of the cut out float and sink symbols. Learners can then make their predictions and record their observations by attaching a float or sink symbol to the worksheet.
