

Clicker Resources for the 2022 Bookbug Picture Book Prize Books

What are the Clicker Resources?

We have created two different Clicker Sets for each book, to support early writing activities. The Clicker Sets can each be opened with Clicker 8 for

Windows devices and Clicker Writer app for iOS.

Simple Sentence Writing Set

This is a Clicker Sentence Set which contains all the words for building a model sentence with an accompanying picture. This allows learners to create ten simple sentences re-telling the the story.

The screenshot shows the Clicker 8 interface for a sentence set. At the top left, there is a green header with a menu icon and the text 'Arlo-the-Lion-sentence-set'. Below this, on the left, is a cartoon illustration of a lion with its hand to its mouth, looking tired. To the right of the illustration is the sentence 'Arlo is very tired.' followed by a vertical cursor. Above the sentence, there is a control bar with four radio buttons: 'None', 'View & Copy' (which is selected), 'View & Remember', and 'Listen'. A red arrow points from the 'View & Copy' button down to the sentence. Below the sentence, there is a toolbar with several icons for editing and navigation. At the bottom, there is a grey box containing a grid of word cards. The first row contains 'Arlo' and 'is'. The second row contains 'tired' and 'very'. To the left of the grid is the same cartoon illustration of the lion. To the right of the grid is a small white square with a black dot.

For learners moving on from an early writing level, alternative sentence model options are available for each sentence, by selecting Clicker Set and edit. The

image above shows the *View & Copy* option, where the sentence model is always in view, (the is the default setting for the book review sets.)

The simple sentences have been designed to link with and be used alongside the symbol communication boards which support discussion around the stories.

Arlo - The lion who couldn't sleep,
GoTalk 9+ Overlay (or printable symbol board)

Book Review Sentence Set

This is a Clicker Connect Set which is a 'next step' for Clicker Sentences users and provides learners with clusters of words, phrases and/or pictures to help them build a coherent piece of text. This allows learners to create simple sentences to review the book content, say what they liked, imagine their

actions if they were a character in the story or how they will put new information learned to use.
