 The Stone Age started when the last Ice Age finished.

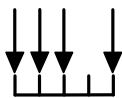

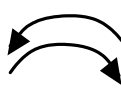

**10,000**

 It began about ten thousand years ago.

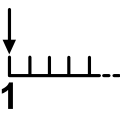

**4500**

 It ended about four thousand five hundred years ago.

 There were many changes during the Stone Age.

 The first  Stone Age men  were  hunters.

 They  moved  from  place  to  place.

 Some  lived  in  caves,  others  made  shelters.

 Later on  they  started  to live  in   groups.

 They
  made
  huts
  from
  sticks,
  mud
  and
  straw.

 They
  had
  a hole
  in the
  roof
  as
  a chimney.

 Groups
  of huts
  became
  settlements.

 A settlement
  is like
  a village.

Men

made

tools

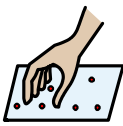

=

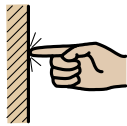

stone.

They

chose

hard

stone

=

flint.

They

broke

the

stone

to make

sharp edges.

They

made

the

sharp

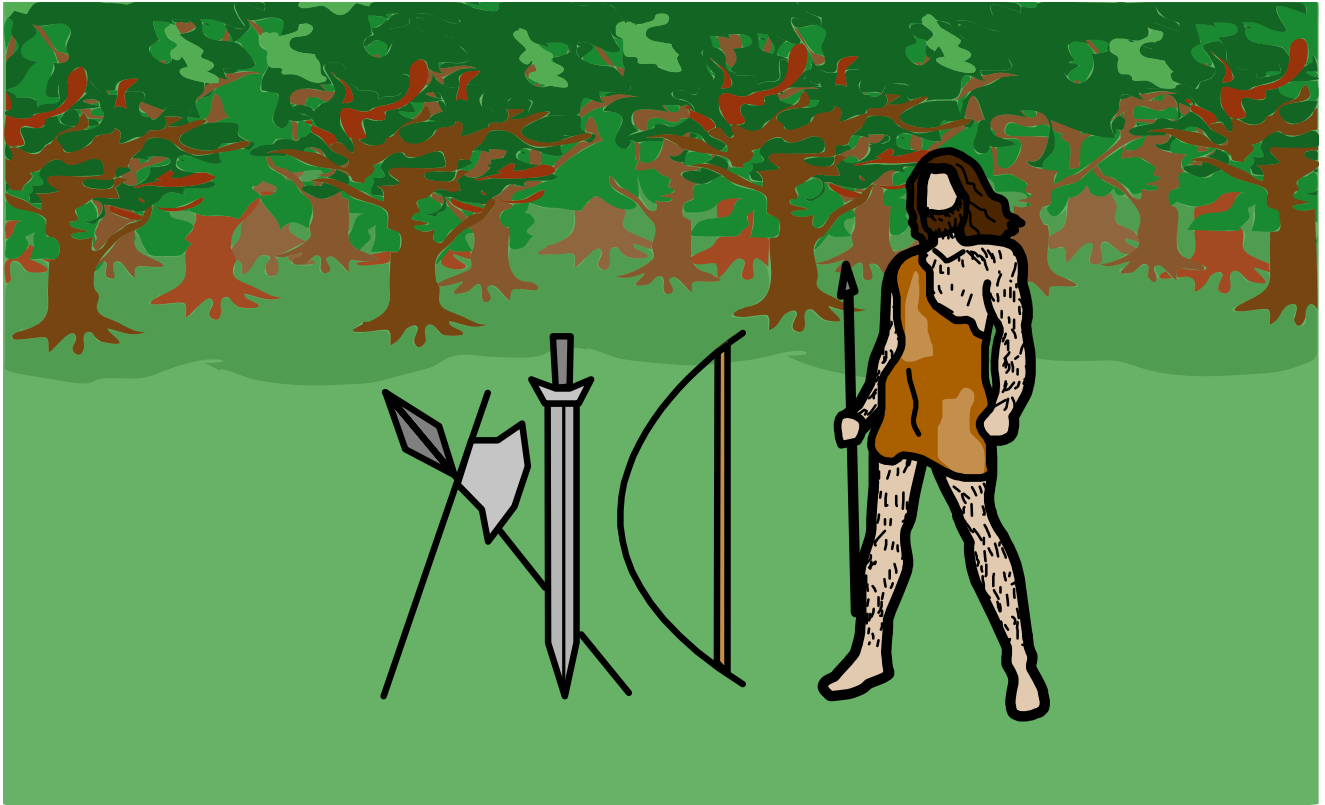

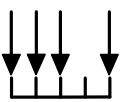

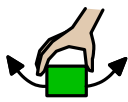

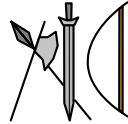

stones

→

axes.

 Lots of
  materials
  were used
  to make
  tools
 +
  weapons.

 Materials
 =
  antlers,
  bone,
  leather
 +
  wood.

 Clothes
 =
  were made from
  animal skins.

 They
 ++
  also made
  jugs
 +
  and bowls
 from
  pottery.

 Stone Age men started to farm the land.

 They grew crops and kept animals.

 Dogs were the first animals to be domesticated.

 Dogs could hunt and warn of danger.

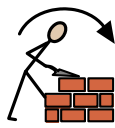

Men

started

to build

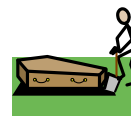

special

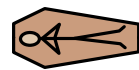

places

to

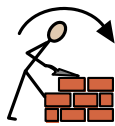

bury

the dead.

They

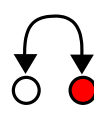

built

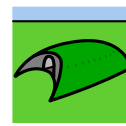

burial

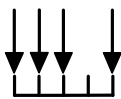

mounds

or

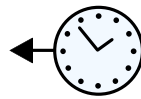

barrows.

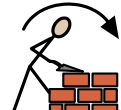

Many

tombs

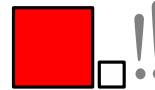

were

built

with

huge

stones.

These are called

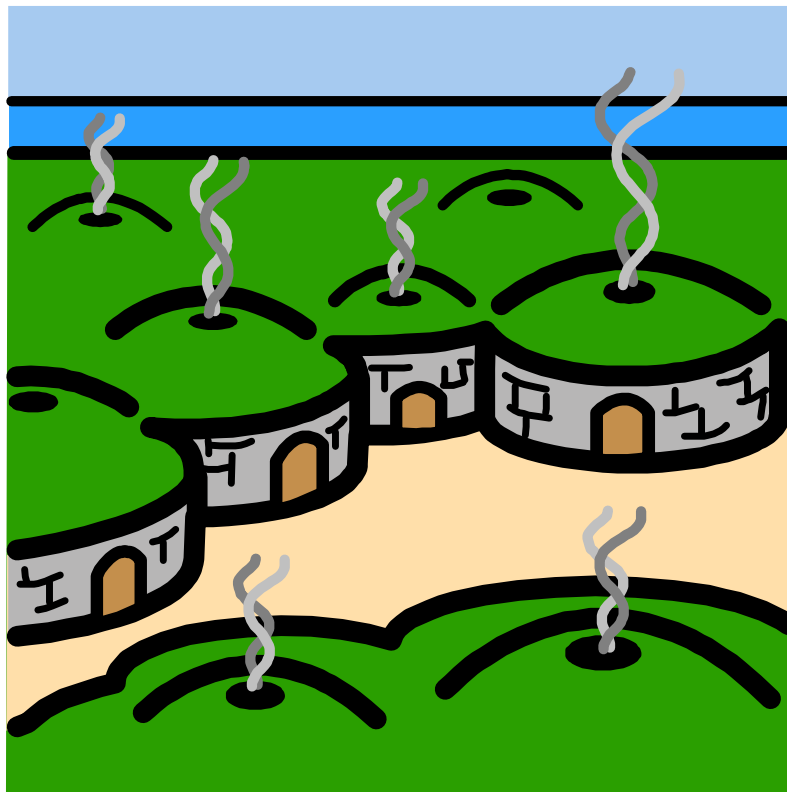

hengese,

=

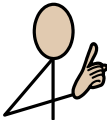

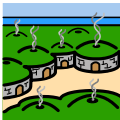

like

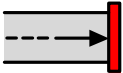

Stonehenge.

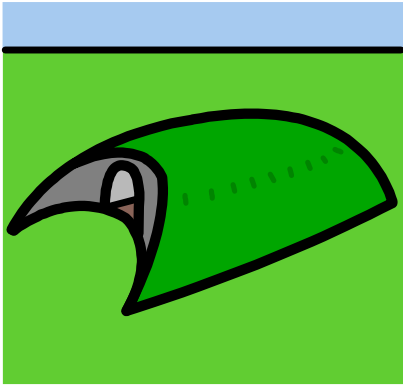

There are  many  Stone Age remains  in  Britain.

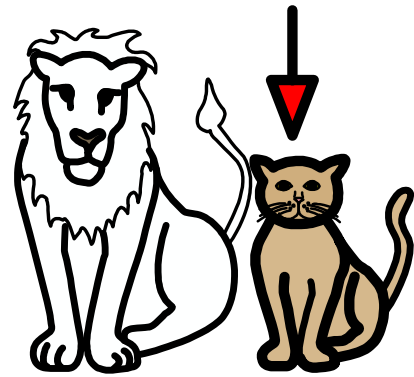

An  important  place  is  in  Scotland.

The  Stone Age  ended in **2500 BC**.

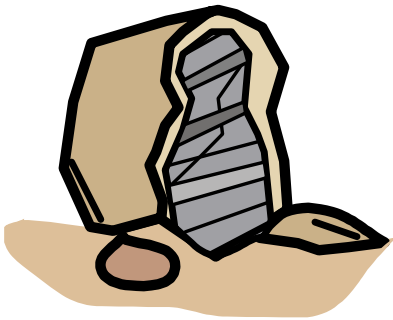

This was  when  they  learned how  to make  metals.
